CANCER BIOLOGY
TRAINING
CONSORTIUM

2015 Cancer Biology Retreat
Integrating Cancer Biology and
Tumor Immunology in Training

Kiawah Island, South Carolina

October 26, 2015

Integrating Cancer Biology and Tumor Immunology in Training

Integrating Cancer Biology and Tumor Immunology in Training

1. 90% Cancer Biologists, 10% Tumor Immunologists
2. Project specific 'malice of forethought' interactions 'what are the immune consequences?'
3. Develop and distribute a Primer on Tumor Immunology (20 slides) for distribution by CABTRAC
4. What are the systemic effects of therapy (radiation, chemotherapy, hormonal therapy)
5. Tumor microenvironment focus (CAF's, TAM's)
6. Training the Trainers to allow understanding of Tumor Immunology
7. Demonstrate Successful Interactions in Research in Progress
Seminars, Journal Clubs, etc
8. Change the name of CABTRAC to CAB'I'TRAC
