

The new review criteria for NCI-designated Comprehensive Cancer Centers incorporates elements of education. Many reviewers and Cancer Center members have expressed confusion regarding what the essential elements are for cancer education. Members of CABTRAC, recognizing that all cancer centers and aspiring cancer centers have unique elements within them, identified what we believe to be the necessary content to successfully train cancer researchers, caregivers and support staff. Fundamental knowledge that spans all of these topics is identified as well as professional development skills.

Essential Components of Cancer Education

Danny R. Welch, Toni M. Antalis, Kerry Burnstein, Linda Vona-Davis, Roy A. Jensen, Harikrishna Nakshatri, Anna Riegel, Douglas R. Spitz, Dennis K. Watson, George J. Weiner
