

The National Cancer Biology Retreat - CABTRAC 2026
Monday, October 5 through Wednesday, October 7
at the Marriott Griffin Gate Resort in Lexington, Kentucky

This conference brings together over 200 researchers, administrators, and trainees from cancer centers, medical and graduate schools and research institutions across the nation. This includes leaders and administrators from cancer biology training programs at most major cancer centers in the US, leaders of the NCI training branch, and over 40 of the nation's best cancer biology graduate students and postdoctoral fellows.

CABTRAC 2026 is a unique opportunity to introduce your products and services to a wide range of cancer researchers, while also enhancing the recruitment of your organization's workforce.

We are excited to offer your company three levels of opportunity at CABTRAC 2026. As a vendor, your organization will have access to introduce your products and/or potential collaborations with attendees. In addition, you can meet trainees that could potentially join your organizations in the future and foster connections with the leaders of training programs that could become pipelines to recruit outstanding new cancer researchers.

Level One: Attend Monday, October 5 through Wednesday, October 7 with all-inclusive full access. \$2000

Level Two: Engage on Tuesday, October 6 with access to sessions and events. \$1615

Level Three: Present your company through media (attendance-free option) \$500

The **All-inclusive Level One Vendor Registration Package \$2000** provides one representative a seat at all group meals (six in total), two night's private accommodations in the meeting hotel, an exhibitor booth/table for all three days, digital signage and your logo on the agenda and meeting website, as well as the opportunity to sponsor a session or event. This package is limited to the first five companies who register. A second person can register at a discounted rate, either sharing a hotel room (\$650) or reserving a private hotel room (\$1000) for the two nights and has the same access.

The **Level Two Vendor Package \$1615** provides one representative an exhibitor booth/table for Tuesday, October 6 only, the opportunity to sponsor a Tuesday session or event with digital signage, your logo on the agenda and meeting website. It also includes a seat at either the Monday reception and dinner or the Tuesday dinner event, plus Tuesday breakfast and lunch. This package includes one night's accommodations in the meeting hotel – your choice either Monday or Tuesday night. This package is limited to the first five companies who register. A second person can register at a discounted rate, either sharing a hotel room (\$438) or reserving a private hotel room for one night (\$650) with the same access as the first person.

The **Level Three Package \$500** will be a tax-deductible donation to the Cancer Biology Training Consortium, and provides the opportunity to sponsor a session or event with digital signage, as well as distribution of handouts in the welcome packages, and have your logo on the agenda and meeting website. Examples of sessions and events available to sponsor include breakout sessions and social events.

CABTRAC 2026 is the key event of the Cancer Biology Training Consortium (CABTRAC), a 501(c)(3) non-profit membership organization established in 2005 to facilitate the exchange of ideas between individuals and institutions dedicated to training the next generation of cancer researchers. CABTRAC works closely with over 80 institutions within the United States as well as the NIH National Cancer Institute's Cancer Training Branch. The mission of this Retreat is to bring together faculty leaders, administrators, and trainees to share best practices for the development of innovative and multidisciplinary approaches to train a diverse, impactful cancer research workforce. It is the only national conference dedicated exclusively to the development and expansion of the cancer research workforce.

We hope that you are able to join us for CABTRAC 2026.
